**25th – 27th MARCH 2011
KUALA LUMPUR CONVENTION CENTRE**

Welcome Message

The success of the 1st National Reproductive Medicine Congress was overwhelming and we are proud to have International Federation of Fertility Societies (IFFS) collaborate with us on this occasion. It thus gives me great pleasure to invite you to participate in the 2nd Malaysian National Reproductive Medicine Congress in collaboration with IFFS, to be held from 25th – 27th March 2011 at the Kuala Lumpur Convention Centre.

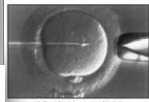

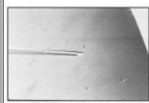

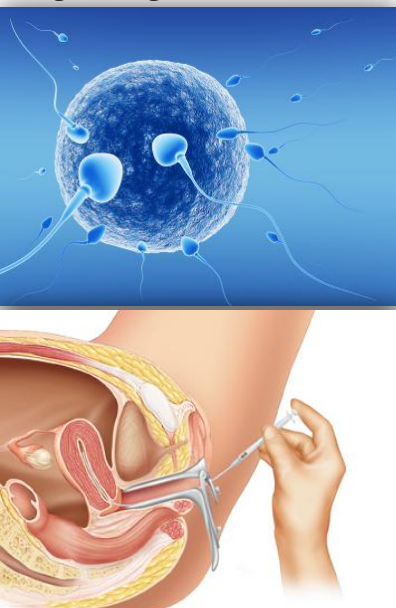

As in the last congress, the scientific content would be of High Caliber and Cutting Edge. Advances in Management, Treatment and Technology would be highlighted. We have invited a host of renowned Reproductive Medicine Consultants and IVF Laboratory Directors and are indeed honoured to have the President of IFFS and President of Fertility Society Australia (FSA) as part of the Faculty of Speakers.

The Pre-Congress workshop on Laparoscopic Surgery and Post Congress Embryology / Andrology as well as Robotic Surgery would further enhance the expertise of the Clinicians and Embryologists. The introduction of **e-poster** presentation not only enhances our delegates to display their knowledge in Research but also shows the commitment of the organization committee in embracing “**Green Technology**”.

The continued support of the Ministry of Health towards the development of Reproductive Medicine Services and in this Congress, is greatly appreciated. We do hope that with the continuous commitment given by the Ministry of Health and Obstetrical and Gynaecological Society of Malaysia, this Regional Meeting would achieve the equivalent status as American Society of Reproductive Medicine (ASRM) or European Society of Human Reproduction and Embryology (ESHRE) in due course.

We look forward to seeing you in Kuala Lumpur.

Dr K.K. Iswaran
Organising Chairman
